Unison Industries Elano Division Dayton OH
2455 Dayton - Xenia Rd.
Xenia, OH 45434

Mike Gass

This letter supercedes DSA letter issued 8/5/2004

Unison Industries Elano Division Dayton, OH is controlled in accordance with GE Aircraft Engines FAA approved Quality System under the authority of Production Certificate PC108.

Please use this letter as your authorization to direct ship to Unison Industries Elano Division Dayton, OH Repair Station and to GE Hungary Company LTD D.B.A. GE Hungary Engine Services (Air Agency Certificate G69Y912Y) any PC108 detail part produced by your company to be used by these repair stations.

After Unison Industries Elano Division Dayton OH conducts its' final inspection(s) the hardware must be presented to Unison Industries Elano Division Dayton OH's GEAE Designated Supplier Quality Representative (DSQR) or a GEAE Field Representative. The DSQR/GEAE Field Representative is hereby directed to determine hardware conformance to FAA approved type design data and ink stamp or bar code the shipping document with a GEAE full release stamp. The following certification statement must be included on shipping documents that accompany the hardware:

"All parts in this shipment are authorized to be direct shipped and have been produced or procured under the direction of GEAE quality control system which meets the requirements of Federal Aviation Regulation Part 21, Production Certificate Number PC108.

Certified true and correct authorized representative of Unison Industries Elano Division Dayton OH.

Signature Mike Gass Date 1-10-05"

The shipping documents do not require GEAE model eligibility as these detail parts have various applications. Eligibility requirements will be met by the repair stations.
